SECURED MOBILE-READY WEBSITES, APPLICATIONS AND WIRELESS BROADBAND ACCESS TO THE PUBLIC - REQUEST FOR 30 DAY EXTENSION (Item 10, Agenda of November 20, 2012)

On November 20, 2012, on motion by Supervisor Ridley-Thomas, as amended by Supervisors Yaroslavsky and Antonovich, the Board directed the Chief Executive Officer (CEO) and the Chief Information Officer (CIO) to:

1. Work with all County departments to prepare a report to the Board within 60 days, on the feasibility of implementing secured mobile-ready websites and applications to ensure the availability of County information on computer and mobile platforms; and
2. Instructed County departments that partner with Internet service providers to not only provide wireless broadband access to the public, but also to leverage that connectivity for their mobile applications and mobile-ready websites.

The CIO and CEO are working with department and Board staff to establish a workable solution to the questions posed by the Board. To date, much information has been collected to identify existing wireless capability within County departments. Additional time is needed to ensure due diligence and to prepare a comprehensive response to your request. Therefore, an extension of 30 days is requested to finalize our research and complete the recommendations to the Board.

If you have any questions on this matter, please contact Scott Wiles at (213) 893-1246 or swiles@ceo.lacounty.gov.
